

Cesare Palumbo

Business & Risk Manager

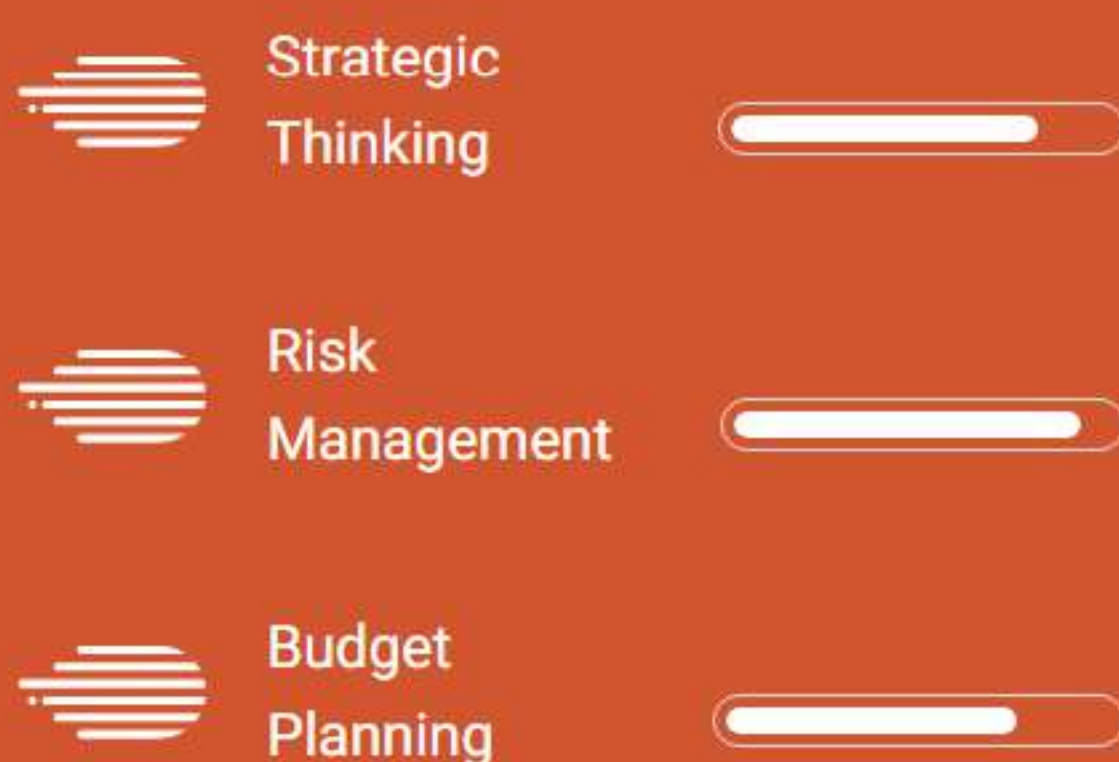

Cesare, born on 16 February 1987 has years of experience working on various projects and for various businesses. Financial Advisor, Compliance and Risk Manager, and Senior Risk Manager are a few jobs that have been held before. The organization is continually changing, thus there are practically endless issues with procedure and design. Using a holistic approach, Cesare views business objectives as fluid targets and actively participates in growing the company every day. He evaluates the company's possible risks and exposures, decides how to effectively reduce such risks, and creates procedures that can be put into practice. He decides how to keep an eye on work activities to make sure risk management procedures are followed. Cesare graduated from Sapienza University and holds a doctorate in risk management.
